

Managed Wireless LAN Services

Increasing Mobility for your Business

GAINING SHORT-TERM AND LONG-TERM BENEFITS

No longer considered a luxury, wireless connectivity is now mission-critical. Today's IT teams face ever-increasing expectations from users for fast, convenient, and secure data access. Whether it's for users who simply need to connect to network resources, or to support major new technology initiatives for Internet of Things (IoT), mobility or BYOD, the wireless LAN plays a key role in many organizations' technology vision.

MEETING THE CHALLENGES

Do you have adequate resources and expertise to meet new demands? Is an integrated strategy in place for managing the entire lifecycle? Can you address increased risks and security concerns? Are you ready to capitalize on new opportunities with wireless LAN capabilities that meet your existing and future needs? Considering these questions and partnering with Acuative will provide the framework to build and sustain the wireless LAN that will help transform your business.

THE ACUATIVE SOLUTION

Our comprehensive approach helps you deliver the wireless network environment that moves your company forward and simplifies the entire process. Based on nearly 40 years of experience supporting networks in a wide variety of industries, Acuative provides the following fully managed Wireless LAN services using Cisco Meraki:

- Assessment of your current infrastructure, alignment with your technology and business goals, and gap analysis, including site surveys
- Design and engineering for the future state of your Wireless LAN including strategic roadmaps and network design
- Infrastructure and circuit procurement, inventory management, staging and pre-deployment configurations
- Fast, effective implementation for hardware and cabling and on-site maintenance by our own certified Field Service Engineers
- 24/7 proactive monitoring and remote support to detect and manage issues

Complete services to deliver a consistent, high-quality and secure wireless experience.

Be Ready for What's Next!

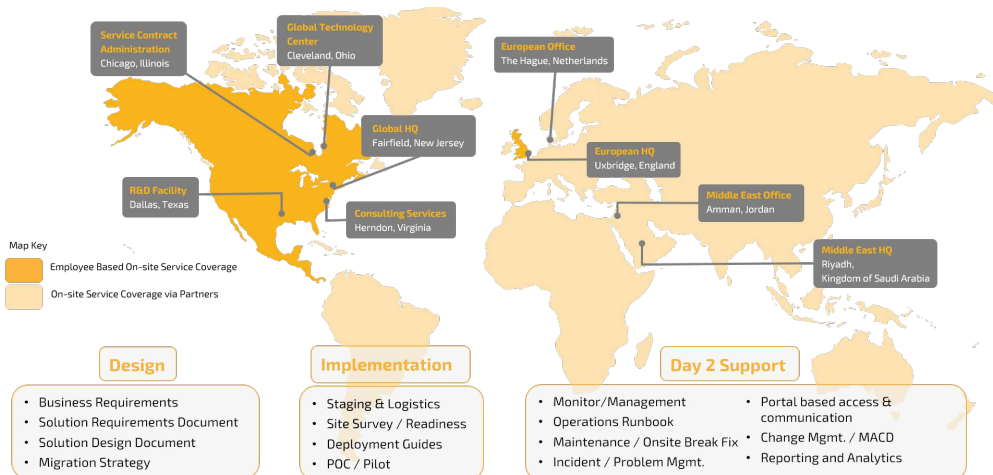

EXPERTISE YOU CAN COUNT ON.

Acuative's highly skilled teams deliver reliable solutions featuring innovative, proven technologies for network infrastructure WAN/LAN, IPT/unified communications, security, mobility/wireless, data center, storage, and interactive kiosk/digital signage needs. Utilizing our certifications and following industry best practices from ITIL®, PMI®, BICSI®, and our own quality program, Achieving Service Excellence (ASE), we plan and execute to the highest standards.

INNOVATIVE. RELIABLE. SCALABLE.

Acuative enables companies to maximize their IT potential and market opportunities. We act as our clients' consistent, single source partner who provides reliable support while remaining flexible enough to move quickly and effectively. We start by understanding your technology and business goals and develop and execute strategies to ensure the right resources and services, when and where you need them worldwide.
